

process\_explicit\_exit  
\_notification\_timer\_wakeup

```
graph LR; A["process_explicit_exit_notification_timer_wakeup"] --> B["event_timeout_trigger"]
```

A diagram showing a call from the function `process_explicit_exit_notification_timer_wakeup` to the function `event_timeout_trigger`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

event\_timeout\_trigger
