

tls\_crypt\_adjust\_frame  
\_parameters

```
graph LR; A[\"tls_crypt_adjust_frame_parameters\"] --> B[\"tls_crypt_buf_overhead\"]
```

A diagram showing a dependency between two TLS-related parameters. On the left, a gray rectangular box contains the text 'tls\_crypt\_adjust\_frame\_parameters'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'tls\_crypt\_buf\_overhead'. Both boxes have a black border.

tls\_crypt\_buf\_overhead
